Jordan Hatcher is a lawyer and legal consultant specialising in copyright and trademark issues, open content, free and open source software (FOSS), and anything where digital technology and the law meet.

This event is going to be an exploration of collective wisdom. The method will be based on 'World Cafe' (www.theworldcafe.com) - a way in which a whole group can tap into the knowledge, skills and experience of each person there.

SCIRIA Research Unit

The SCIRIA Research Unit focuses on art and science collaborative research. Current areas of investigation include: creativity and cognition, multi-sensory computer interfaces and the virtual representation of cultural heritage artefacts. The Unit explores and develops the potential applications of emerging interface technologies, including haptics, gesture syntax and biometrics.
