**Frankfurt am Main**  
**6 – 8 June 2005**

There will be a simultaneous interpretation of all lectures into German and English.  
Questions may be asked in either language.

Discussions will be interpreted simultaneously.

There will be an opportunity to make appointments with the speakers after the end of each lecture.

**We cordially invite you to the  
3rd International Avantex-Symposium  
in Frankfurt am Main from 6 to 8 June 2005.**

Innovative apparel textiles are gaining increasingly in significance. Many textile and garment manufacturing companies see their future in this market for 'intelligent' textiles, which holds out the promise of added value or supplementary benefits compared to classic garment textiles and, therefore, new sales opportunities.

Time and again, it becomes apparent that many potential users within the process chain are not even aware of existing materials and technologies. Following the success of the first two symposia in 2000 and 2002, the 3rd International Avantex-Symposium will once again help to draw attention to what already exists, to promote the exchange of information along the entire textile chain and to boost new developments.

The lecture programme is in line with the revised concept of Avantex, which includes four new areas of application – fashion/lifestyle, healthcare, sports/outdoor and workwear/protection – and is designed to create greater transparency and permit greater target-group accuracy. Each of these areas of application will be treated within the framework of the Avantex-Symposium. Rounding off the programme will be lectures on recent developments in the fields of materials, technology and electronics for garments.

In organising the Avantex-Symposium, we have branched out in several new ways:

- Five programme committees, each of which is made up of renowned experts, have compiled the individual thematic lecture blocks.
- At the request of the sector, the Avantex-Symposium will be held parallel to the 13th International Techtextil-Symposium (technical textiles, nonwovens and textile-reinforced materials) from 6 – 9 June. For organisational reasons, each event will offer two parallel blocks of lectures (instead of three each, as in the past).
- In the afternoon of 6 June, a lecture block common to both symposia will examine the future perspectives of the European textile industry.
- The other lectures of the Avantex-Symposium will be held during the morning and afternoon of 7 June and during the morning only of 8 June.
- Admission tickets for the Avantex-Symposium also entitle holders to attend the parallel lectures of the Techtextil-Symposium.
- Reducing the number of parallel lecture blocks to two means we have been able to reduce admission prices.

Our special thanks is due to all members of the programme committees for their active support in compiling the symposium programme. Additionally, we would like to thank the speakers and all who have contributed to a successful event with their ideas and commitment.

We wish all participants an informative and inspiring time in Frankfurt am Main.

### Avantex-Symposium June 6 – 8, 2005

#### Important Information on Registration and Payment Registration Conditions

##### Registration

The **conference fee** includes services as listed below:

- Registrations up to and including 12 May, 2005 contain entrance to Avantex and Techtextil on the day booked as well as free travel to and from the exhibition within the Rhein-Main-Verkehrsverbund (RMV), the local transit system network.
- Conference documents of the day and Symposium booked.
- Access to all public sessions of the day booked. A change between the Avantex- and Techtextil-Symposium is possible.
- Participants of the Techtextil-Symposium who are interested in the Avantex-Session on June 7 in the afternoon need an additional registration for half a day.

After May 27, 2005 pre-registrations cannot be accepted. Attendees wishing to register after this date, are kindly asked to see us at the registration counter during the conference.

The name badge is only for the use of the registered attendee!

##### Payment

All given prices include the statutory Value Added Tax (VAT) valid at the time of the congress. Payment will be accepted in Euro (EUR) only.

The preliminary program can be seen under [www.avantex.messefrankfurt.com](http://www.avantex.messefrankfurt.com) and will be regularly updated. You will receive a name badge and your conference documents on site.

In order to avoid delays, please use one form per attendee and return only completed registration forms. For additional attendees, please use copies of the registration form.

Please add a confirmation to receive a price reduction (e.g. student identity card, confirmation of institute). Please carry and show your confirmation if necessary.

##### Cancellation

If you register and cannot attend you are still responsible for full payment.

- **Cancellation until May 20, 2005**  
A refund of 50% of the conference fee will be granted only if cancellation is received in writing on or before May 21, 2005.

##### Cancellation from May 21, 2005

Refunds will not be granted for cancellations made after May 20, 2005.

In case that the conference has to be cancelled by Messe Frankfurt, all the same for which reasons, already paid conference fees will be fully refunded. Further demands on Messe Frankfurt are impossible, e.g. cancellation fees for hotel accommodation, travel expenses etc.

##### Pre-Registration until May 27, 2005

We accept the following credit cards: VISA, Eurocard/Mastercard, Diners, American Express

Bank transfer is possible upon receipt of an invoice. Please note that possibly resulting bank charges will be debited to the attendee. No cheques accepted. Attendees will be asked for a credit card guarantee on site if payment has not been received in time.
