

IFSCC 24th Conference 2017

Seoul, South Korea

Top 10 Posters

Author(s)	Title
M. Komorisono, M. Kuwajima, S. Yoshikawa, K. Maeda – <i>Kobayashi Pharmaceutical Co., Tokyo University of Technology</i>	Human skin-type ceramide 1, 2, 3 mixture has a positive effect on the dermal extracellular matrix
P. Orzol, M. Moravcova, D. Gerhardova, I. Doleckov – <i>Contipro a.s.</i>	Melanosomes transport and its diversity in different skin phototypes
D. Jiang, H. Li, S. Jiang, M. dos Santos – <i>Jala Group Co</i>	Development of a 3D full-thickness pigmented skin equivalent model containing lymphatic capillary-like structures using a porous scaffold polymer
S. Tamburic, M. Stevic, H. Sisson – <i>University of the Arts London</i>	A comparison of rheological and texture analysis methods for the assessment of viscoelasticity
L. Pagis, F. Jouffret – <i>Imerys Performance Additives</i>	Natural minerals – Viable alternatives to synthetic ingredients for providing opacity and pearlescence in shower gels and shampoos
P. Huber, A. Bongartz, N. Julius – <i>Zurich University of Applied Science</i>	How far can we predict sensorial feelings by instrumental modelling?
DW. Kim, W. Choi, SK. Son, JR. Lee, SM. Lee – <i>LG Household & Health Care</i>	Surface modification of human hair using LBL (Layer By Layer) and bio-conjugation technologies
D. Kern, J. Namkoong, M. Riggs, HE. Knaggs – <i>Nu Skin Enterprises</i>	Digital image analysis of skin improvement following use of a novel treatment cleansing technology
AY. Kim, JH. Ha, YM. Park, YS. Lee, HS. Sin, ES. Park, SN. Park – <i>Seoul National University of Science & Technology</i>	Preparation and physicochemical properties of hydrogen peroxide-sensitive nanoparticles and drug release evaluation of pH-sensitive hydrogel complex
T. Koike, Y. Yasuda, F. Formanek, Y. Nagamatsu, R. Hara, D. Morita, V. Schwartz, A. Colonna – <i>L'Oréal</i>	The interest of mesoporous fillers, as cosmetic ingredients, as aerial pollutant absorbers
