You are invited to a private preview of *Treatment for Six Characters*, by Anne-Marie Creamer. Made during her time at the British school at Rome and based on an unrealised film Italian writer Luigi Pirandello wished to make about the creation of his seminal 1921 play *Six Characters in Search of an Author* – Anne-Marie used a text found in a drawer in Vienna about twenty-five years ago to adapt Pirandello's documented plans, and influenced by Pirandello's as well as Brecht's ideas about drama she has made a film that explores the imaginative possibilities of Pirandello's absent film.

The film lasts just over 30 minutes. Further details will be provided nearer the time.
