

Sigune Hamann *Landscape, Loop*

Multiple

The multiple *Landscape, Loop* shows an image of an urban landscape (allotment) as a standing cylinder. The image is revealed gradually by changing viewpoints, showing sections of the seemingly endless landscape over time.

Hamann developed the project during a residency in Experimental Psychology Oxford University.

Sigune Hamann is an artist working in London since 1993. She is Reader in Art and Media Practice at the University of the Arts, Camberwell College of Arts London.
