         \operatorname{DT}\ |\ \operatorname{I}\ \operatorname{thought}\ \operatorname{it}\ \operatorname{was}\ \operatorname{interesting}. For certainly the first
         two thirds, there were certain aspects that revealed a different
         kind of listening. I think it's important to do that, to think
         rhythmically, not think of what you're doing as a continuum.
         DT | What else should we be working on?
    Class | We play as loud as we can for an hour.
     Class | Sorry, I'm not explaining myself well. We limit ourselves to one task at a time.
         DT | 20 minutes. Let's start with a duo again.
