# CARISMA

In 2006/07 Greater Manchester saw a 9% increase in incidents from 110 in 2005/06 to 120 incidents.

Six of the discharges resulted in fatality, including the death of Jessie James.

Jessie's death reflects our greatest concern; the increased victimisation of young people in the community by those involved in firearms criminality.

Kara Lyons + Mothers Against Violence

o kara lyons & MAV

In celebration of the 20th Year of Mothers Against Violence these pavement sculptures, made with metal recycled from guns, commemorate every life lost to gun crime in our local community.

***'Paving the way to Peace' 2019***

The sculptures were made by the artists at Guns to Goods working with a young hip hop dance troupe from Mothers Against Violence. The joyous movement and rhythm of the dancers' feet has been captured in the texture of the artworks.

The metal was sourced from gun amnesties supported by our local communities working with Greater Manchester Police.
