STUDIO with

The Aerograph

ELECTRIC
MOTOR DRIVEN

AIR COMPRESSOR

Connected in a moment with an ordinary electric lamp fitting, it will quickly and SILENTLY produce an adequate supply of compressed air for operating the Aerograph handpiece. AUTOMATIC VALVE RELEASE reduces consumption of electric power to a minimum, whilst ensuring uniform pressure as required up to 40 lbs. per sq. inch. Very compact and self-contained. SOON PAYS FOR ITSELF BY THE TIME AND LABOUR IT SAVES.

Type M 1. $\frac{1}{2}$ H.P. for 2 operators.
Type M 2. $\frac{1}{2}$ H.P. for 4 operators.

A NEW AND BETTER AEROGRAPH

—AT A LOWER PRICE

The new "A.E" Model embodies important and exclusive new features in addition to all the good points which have made the original "A" Model famous during the last 35 years. These new features together with full details of what the Aerograph will do for the Artist are fully described in an attractive three-colour leaflet.
