# BETWEEN

A dance performance installation by  
**Angela Woodhouse &  
Caroline Broadhead**

Angela Woodhouse and Jerwood award winning artist Caroline Broadhead bring you a stunning performance installation, *Between*.

Setting visual spectacle against intimate exchanges, the artists interrogate what it is to experience dance performance. This unique work is made in collaboration with exceptional performers Stine Nilsen (Candoco Dance Co), David McCormick (Richard Alston, DV8) and Martina Conti (Firenza Guidi).

Angela and Caroline's combined interests explore detail and intimacy. Through the interplay of dance, materials and light, they generate highly charged and atmospheric audience experiences. Previous works include *Court* (2003-6), *Sighted* (2009), and most recently *Censored* (Woking Festival and Tate Artists Room 2010).
